PROFESSIONAL OVERVIEW

Project Manager with 30 years of experience delivering innovative, cost-effective design solutions across commercial, industrial, & residential projects. Proven leader in managing large-scale projects from concept through construction, ensuring compliance with building codes, client expectations, & budget constraints. Skilled in team leadership, client relations, & multidisciplinary coordination with focus on quality, sustainability, and operational durability.

WORK EXPERIENCE

Project Manager

DLZ National, Inc., Green Cove Springs and Jax Offices | 2024 – 2026

- Lead design & delivery of complex commercial & institutional projects valued up to \$90M
- Ensure compliance with multiple states', and federal building codes and regulations
- Retain strong client relationships, resulting in repeat business & long-term partnerships

Senior Project Manager

LS3P (acquired Ebert, Norman & Brady during my employment), Jax Beach | 2021 – 2024

- Independent remote work communicating with team members
- Collaborated with Duval County Public Schools to integrate new safety standards
- Provided CA for Clay County District School projects

Senior Project Manager

Level Architecture + Interiors, Gainesville | 2020 – 2021

- Develop interpersonal relationships with University of Florida Project Managers on multiple projects
- Provide life safety code research and implementation along with ADA guidelines and requirements for plans
- Managed and led multi-disciplinary team throughout development and construction administration for a specialty industrial project
- Created quality assurance and quality control approaches for internal team members

Building Plans Examiner

Clay County Board of County Commissioners, Green Cove Springs | 2019 – 2020

- Reviewed commercial / residential plans for ADA and building code requirements
- Corroborated with IT to implement better solutions for Building Inspectors' routes and input methodology
- Interacted with public daily to provide answers to building code, ADA requirements, and county ordinance procedures

Senior Project Manager

Ronald Scalisi Architects, PA, Jacksonville | 2004 – 2018

- Executed designs from plans and documents developing libraries for BIM
- Conducted monthly production and operations meetings on site(s), which facilitated stronger communication and the ability to resolve critical issues
- Managed and led multi-disciplinary teams throughout development and contract documents assisting in construction administration
- Created new and innovative approaches to problems & executed with office team
